

## Join us on June 22 for an information session about the planned Microsoft datacenter campus in Mount Pleasant

Datacenters provide the physical infrastructure for the technology we depend on at work and in our personal lives. Whenever you open an app on your phone, join a virtual classroom or meeting, snap and save photos, or play a game with your friends online, you are using a datacenter. Local businesses, government, hospitals, and schools rely on datacenters every day to deliver you goods and services.

During this information session, you will have the opportunity to learn more about datacenters and our commitments to the community, view conceptual plans of our Mount Pleasant campus, and ask questions.

**Thursday, June 22, 2023**  
**Drop in between 4-7 p.m.**

**Gateway Technical College:**  
**SC Johnson iMET Center**  
2320 Renaissance Blvd,  
Sturtevant, WI 53177
